Third-year Engineering student at Elisa Aerospace, currently in the First-year of the engineering cycle. Throughout my studies, I have developed skills in mechatronics, programming, and mechanical designs.
I am passionate about aviation and aspire to become an airline pilot. Open-minded, curious, and enthusiastic, I am eager to deepen my knowledge of the aerospace industry and develop my technical skills. Seeking an engineering internship from July 2026 to January 2027 outside France

Technical skills

Programming :
Python, C++, MATLAB

Engineering Software :
3DExperience, CATIA, Blender

Software :
Advanced Excel, PowerPoint, Word

Languages

Spanish :
B2

English :
Level C1, preparing for TOEIC

French :
Native

Soft Skills

- Intercommunication collaboration
- Multitasking
- Serious
- Problem-solving

Interests

- Painting (oil and acrylic)
- Extreme sports (motocross, skydiving)
- Horseball and horse riding

Education

INTEGRATED ENGINEERING PREPARATORY CYCLE 2024 - Present
ELISA Aerospace Bordeaux
• Physics: Rigid Body Mechanics, Electromagnetism, Thermodynamics.
• Mathematics: Linear Algebra, Calculus, Analytical Geometry, Probability.
•Electronics and Systems: Analog and Digital Electronics, Mechanical design

SCIENTIFIC BACCALAUREATE (FRENCH HIGH SCHOOL) 2021 - 2024
• Majors: Physics & Chemistry, Mathematics
• Specialization: Advanced Mathematics
• Honors: Graduated with Honors

Academic Project

Mechatronics Project - Walking Quadruped Robot : 2026

- Designed and 3D-modeled an Arduino Nano board holder and an ON/OFF button mount using CATIA and 3DEXPERIENCE
- Programmed the robot using Arduino IDE to enable autonomous walking and maintain balance
- Assembled motors, microcontrollers, sensors and handled electronic component soldering and wiring, including the Arduino board, gyroscope, and display
- Successfully built and assembled the robot from scratch, achieving stable standing and three-leg balance with and without gyroscope assistance

Work Experience

Crew member - McDonald's June - July 2025
- Provided customer service across the dining area, Click & Collect, and Drive-Thru
- Prepared and cooked menu items in accordance with food safety and quality standards

Engineering Intern - Glass Industry July 2023
- Discovered the engineering and design processes involved in industrial furnace development

Qualifications

PPL (Private Pilot Licence) 2026
- Theoretical Knowledge Completed

Accelerated Freefall Training (PAC) August 2026
- Completed 7 skydiving jumps from an altitude of 4,000 m (around 13 124 ft)
- Developed skills in safety procedures, focus and self-control

Aeronautical Initiation Certificate (BIA) 2023
- Passed with highest honours
